North Carolina Women – Leading Since 1774!

August 2023

## From the desk of Kay Wildt, NCFRW President

I don't know about you, but I've had enough of being bullied by the Left. We cannot shut our eyes to facts, and we cannot be cowards.

By not confronting what we know is wrong, we've allowed disturbing changes that are destroying our nation and our way of life. Whether the subject is school curricula, transgenderism, China's stealth invasion, or being targeted by Big Government, we must find courage within ourselves and take action.

Just as our military takes an oath to support and defend the Constitution, we have a responsibility to defend the ethics and morality that underpin our nation.

Pray for President Trump in this time of affliction.

## Reflection from NCFRW's "How to Pray for America" by Margeaux Holland, Chaplain

Our prayer is for Businesses across America: Our country runs on them, and they touch our lives each day. May businesses be filled with wisdom, integrity, generosity and blessed commerce.

## Support our work!

Holly Randall.

As the Chinese spy balloon was shot down over the USA in February, NCFRW members were meeting with Gordon Chang and learning how to push back against China's pervasive influence.

At our three yearly statewide meetings, we educate and inspire our members with notable speakers, like political scientist Dr. Carol Swain, terrorism expert Clare Lopez, motivational speaker Tana Goertz, and 1st Liberty attorney

Those speakers encourage and energize our NCFRW members who devote thousands of hours a year of their time to spread our Republican message in their communities and work tirelessly to elect our slate.

Contributions enable us to bring those great speakers to our meetings and to further

our mission to positively impact our state and nation, recruit and elect conservatives to office, advocate for good government, and offer ongoing training and communications.

**Please support our work with a gift from your heart.  
We are grateful for help at every level. Thank you!**

### WATER HEATERS

#### Energy Conservation Program: Energy Conservation Standards for Consumer Water Heaters

**Deadline to comment: September 26, 2023**

Now I'm not saying that the Feds want to ruin our lives, but their cash-flow model is called "Government Regulatory Impact Model ("GRIM"), and GRIM says it all.

Just like "improved" toilets that don't flush, washing machines that don't clean, dishwashers that run for hours, the Feds now propose better water heaters.

The Feds admit that some people may have to forgo basic necessities and keep their homes at unhealthy temperatures. They admit that rebates will be necessary for people to afford the "improved" heaters. One point the Feds made is that homeowners bear the full cost of replacing the heater, unlike renters. Do they believe that a landlord does not pass on costs to the tenants by raising rent?

Please comment to push back against the power-hungry Biden administration.

- Stop the tyrannical rules.
- Let people choose to purchase gas or electric.
- Many people cannot afford these mandated appliances.
- Machine changes enrich foreign manufacturers.
- Rebates are just another tax.
- Experience shows that "efficient" models do not perform better.
- Relies on a problematic electric grid.

- Power companies control pricing of electricity.
- Threatens to put gas water heater manufacturers out of business.
- The alleged savings are fiction.

## Club News

### Moore Republican Women

The "Supremes" and their lip-sync version of "Stop In the Name of Love" were just part of the entertainment at Moore RW's 2nd Annual Sock Hop fundraiser. Club members decorated a school gymnasium, provided treats and enjoyed DJ King Curtis' classic rock and roll songs. Elected officials joined in the fun with outrageous costumes and hilarious lip-sync skits. The Club raised nearly \$5,000 for its

programs.

### Republican Women of Lake Norman

God has blessed RWLKN President Lauren Cummings and her husband with her club's newest Associate, a baby boy! We're certain he loves toy elephants more than teddy bears. As the new 1st Vice Chair of Young Republicans, Lauren will raise him Right!
